**The New Giant Jersey Gem Viola**  
(OUR OWN INTRODUCTION)

A wonderful new seedling from Jersey Gem, the stem is longer, the flower, a beautiful rich shade of purple, is larger and more perfectly formed. In the hot weather, the past summer, THE NEW GIANT JERSEY GEM bloomed continuously when all other Violas stopped.

This plant of dwarf, compact habit, grows in any soil with plenty of sun and is absolutely free of the sprawly habit, which is characteristic of the old Jersey Gem plants.

U. S. Dept. of Agriculture  
Division of Horticultural Crops & Diseases  
Bureau of Plant Industry  
Washington, D. C.,

Dear Sirs:

May we present you our Nursery Price List  
for the year 1934.

We honestly believe you will find our stock  
very reasonably priced and of the finest quality.  
A large variety of common and unusual plants would  
make your visit to our Nurseries well worth while.

The superintendent will show you every courtesy  
and gladly explain about any of the plants in which  
you may be interested.

In conjunction with our Nursery we operate an  
up to date Landscape Department.

A call from you would have our immediate atten-  
tion.

Sincerely yours,

Corliss Bros. Inc.

**IMPROVE YOUR PLANTS  
AND LAWNS  
WITH**

**MENDERTH**

**for  
HUNGRY SOIL**

MENDERTH restores to your soil the vital mineral salts—bland, non-burning, pure, natural, primal earth minerals, finely powdered.

MENDERTH will rebuild your soil and make it clean, healthy and productive, overcoming many plant troubles.

MENDERTH has qualities all its own, which produce different and better final results.

BOSTON, MASS.

*Write for Booklet*

# for **CLEAN SOIL CULTURE**

**MENDERTH** is a Natural Remineralizing Material, clean and odorless. Menderth does not burn the tenderest grass or foliage. It aids Nature in producing **HEALTH GIVING FOOD STUFFS**, Flowers of greater beauty, Finer Lawns, Trees and Shrubs. Menderth keeps Golf Course grasses in a natural, healthy condition.

## **MENDERTH WORKS IN HARMONY WITH NATURE**

**U**NLIKE most plant foods, **MENDERTH** may be applied to the plant directly, without burning, or hurting the tenderest foliage. It is not only a soil restorer but can be used also for dusting on foliage and around the stalks and roots of growing plants. It should be dusted on and under the leaves when the plants are dry, and when the buds are maturing.

**MENDERTH** is not sold as an Insecticide, but a customer says:

"During the four years that I used your plant food in my garden, I did not see a cut-worm or corn borer."

And for potted plants another customer says:

"I put some **MENDERTH** on a potted house plant in my room and the next morning the window was covered with bugs that had left the plant. More than one hundred were to be seen and I swept them out the window."

## NATIVE SHRUBS AND PLANTS

We can furnish any of the native trees, shrubs, plants or ferns that grow in this vicinity.

Large tracts of wood and pasture land are at our disposal, from which we can obtain any of these native plants.

## R O S E S

As long as they exist Roses will retain their dominant grip upon the affections and appreciations of flower lovers.

Our Hybrid Tea Roses are all POT GROWN. This assures satisfaction and enables the customer to plant them any time during the season. Although in pots these roses are grown in the open air.

We ship POT GROWN ROSES in paper pots.

2 year POT GROWN ROSES....65c Each; Per 10 \$6.00

3 year POT GROWN ROSES....85c Each; Per 10 \$7.50

## HARDY PERENNIALS AND ROCK PLANTS FERNS AND GRASSES

Perennials comprise most of the best flowers as well as the foundation of any well planned garden. They exist in infinite varieties, sizes, colors and seasonable bloom.

The material we grow is strong field grown stock, with the exception of some varieties which transplant better by being grown in pots.

We offer perennials in quantities of three, instead of singly, as we believe generally speaking it isn't practical to get a satisfactory garden effect by using one plant of a kind. Please remember that four plants or more of one variety will be priced at the ten rate and that twenty-five or more of one kind will be entitled to the hundred rate when such rate is given.

Plants marked with (r) are particularly adapted to the Rock Garden.
